Potato Whitepaper - One Supply Infinite Potential (Ongoing)

1.0 Overview

What makes Potato unique?
There is only one Potato.

1.1 Potato Lore

In the sprawling expanse of the digital realm, amidst the whispers of algorithms and the hum of servers, a saga unfolds—a tale of $POTATO a curious crypto currency born of promise and innovation. Alas, its genesis was tainted by the deeds of a dev, who, blinded by greed, betrayed the trust of the community, leaving the project in ruin. But from the depths of despair, a band of steadfast believers emerged, fueled by determination and unity. Through their collective efforts, they wrested control from the clutches of deceit, breathing new life into $POTATO and restoring its rightful place among the stars of the crypto firmament. Thus, in the annals of the digital age, the tale of $POTATO stands as a testament to the resilience of the human spirit and the power of community.

2.0 Potatonomics

Potato has evolved as a low-volatility token that continuously appreciates in value rooted on its scarcity. 1 Potato = 1 Potato.

2.1 Potoshi-Spudtoshis-Fries

Potoshis are the smallest denomination of Potato equivalent to 1 one billionth of the Potato. Small denominations make Potato transactions easier to represent as the Potato price moons. Furthermore, the two other denominations are represented as Spudtoshis and Fries equivalent to 1 one thousand and 1 one millionth of a Potato respectively

1 Potato = 999,999,999 Potoshi Units
 Decimal Break Down:
000,000,001 - 000,000,999 = Potoshi
000,001,000 - 000,999,999 = Spudtoshi
001,000,000 - 999,999,999 = Fries

3.0 Future of Potato

The community is working hard to expand the Potato ecosystem; always cooking. Current initiatives include sending $POTATO to the moon and launching the Potato to space, literally.
